

## **Important Information: About your Office Broadband**

Over the past few months we have noticed a significant increase in the number of broadband issues arising. In many cases, businesses have been without internet, email for many days. It has been identified now that in many cases the broadband router supplied is at fault.

**Did you know that it can take between 2-3 business days for a replacement to be shipped?  
Support engineers no longer carry replacement spares in their vans.**

Most businesses heavily rely on full uptime of email and internet communications for business. As a result, we are sharing this information with you so that you can be prepared.

### **Be Prepared**

We recommend now that you purchase a spare unit to have ready in your office. These are affordable and eliminate the stress and interference arising from router faults. It can be left in your office as a redundant backup. All routers are preconfigured and can simply be "slotted" in for use immediately.

### **Choose your router, affordable and**

- Standard Broadband Router (Preconfigured)	€95
- Wireless Broadband Router (Preconfigured)	€139

**Lo-Call 1850 589 589 us now.**

**Talk to Colette who can arrange free delivery for you within 24 hrs.**

Regards,

Ger Sheehan,  
PaqIT Solutions.
